**HRISHIKESH ANAND** Email: hrishikeshsinhabth@gmail.com

GitHub: github.com/Hrishikesh-sinha | Portfolio: hrishikeshsinha.vercel.app

**EDUCATION**

---

**Vellore Institute of Technology (VIT)** Vellore, India
**Bachelor of Technology in Computer Science & Engineering** June 2023 – May 2027
Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Management Systems (DBMS), Object-Oriented Programming (Java), Computer Networks

**TECHNICAL SKILLS**

---

- **Languages:** Java (Proficient), JavaScript (ES6+), TypeScript, SQL
- **Frontend:** React.js, Tailwind CSS, Framer Motion, HTML5, CSS3, Vite
- **Backend & Tools:** Node.js, Express.js, MongoDB, Git, GitHub, Vercel, npm, Postman
- **CS Fundamentals:** Data Structures (Trees, Graphs, Heaps), Algorithms (Searching, Sorting, Dynamic Programming)

**PROJECTS**

---

**DSA Master Visualizer (DSA Forge)**
*React, TypeScript, Framer Motion, Tailwind CSS* | Live | GitHub

Built an interactive platform to visualize **Data Structures** (BST, Stack, Linked List) and **Sorting Algorithms** (Bubble, Selection, Insertion).

Implemented step-by-step execution using JavaScript generators with smooth animations via Framer Motion.

Designed modular architecture separating algorithm logic from UI for maintainability and scalability.

**Language Learning Platform**
*React, JavaScript, MongoDB, CSS3* | Live | Github

- Designing a full-stack **MERN** application to facilitate vocabulary acquisition through interactive learning modules.
- Building RESTful APIs to manage user progress and content delivery using MongoDB for scalable data storage.
- Developing reusable UI components and centralized state management to handle complex user interaction flows.

**EXPERIENCE (Academic & Self-Directed)**

---

**Independent Software Developer** — Vellore, India
*Software Development & DSA Practice* | 2023 – Present

- Developed **5+ frontend projects** emphasizing responsive design and cross-browser compatibility.
- Applied **Git-based workflows** with branching strategies and CI/CD deployment on Vercel.
- Strengthened problem-solving skills by implementing **Object-Oriented Programming (OOP)** principles in Java for CLI-based tools and algorithm practice.

---

**ACTIVITIES & INTERESTS**

- **Competitive Programming:** Regular participant in university-level coding contests.
- **Technical Writing:** Documenting algorithm logic and system architecture through GitHub READMEs.
- **Interests:** Full-stack architecture, open-source contribution, developer tooling.

---
